“Don’t trust buddycloud”

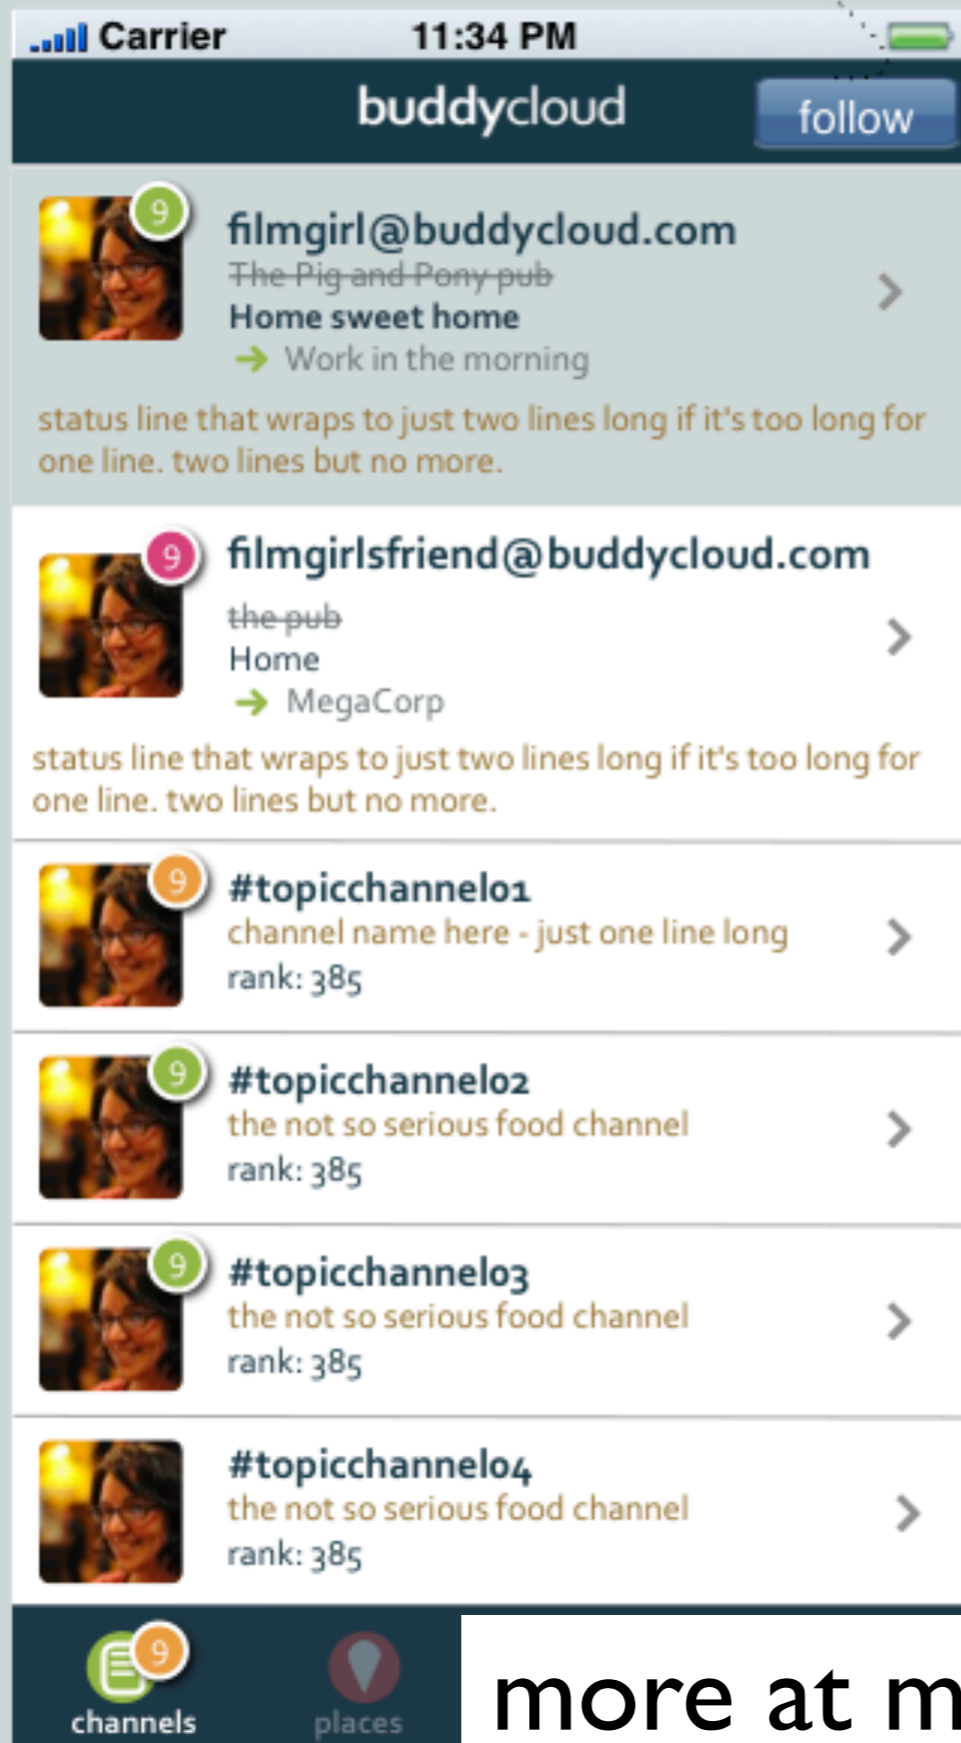

RWTH & buddycloud

what is a channel?

channel tab

bubbling (channel ordering):

1. your personal channel pinned to top
2. unread admin requests sorted by last update
3. unread personal messages sorted by last update
4. unread channel messages sorted by last update

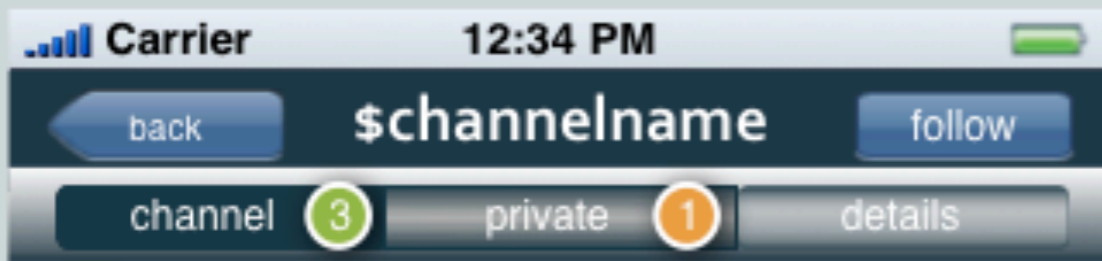

Notes:

- font-face: corbel
- I will generate bw pngs for the icon disabled mode
- our images are stored in 240x240px are giving: 2, 3, 4, 5, 6, 8, 10, 12, 15, 16, 20, 24, 30, 40, 48, 60, 80, and 120 (avatars here are 48x48)

more at m.buddycloud.com/tmp/proofs

- pink: admin messages

channel view

 an alert (perhaps follow request) from `username@buddycloud.com`. It is placed above all the other posts.

negative positive

 this a post. It could be one line (usually is) or run on over multiple lines up to 4096 chars. Text should wrap nicely. Text is always in the colour #132B36. Which looks black but is really a secret blend of bc dark blue.

Munich, Germany | 8 mins ago

 my avatar size is 30px x 30px

 Below is an example of seeing more info for a post. It should show the posting jid, date, time and eventually have some options to share the post, love the post, delete the post and do more...

Munich, Germany | 8 mins ago

 to see more info on t
tap on it.

or 

or  you are viewing this channel as a guest

tap here to see channel details and follow this channel >

Solved:

- Adding topic: use top RHS (+) button

Unsolved:

- How do we post a reply to a topic?
- How do we deal with admin questions "xyz wants to follow? Approve/deny"?
- How do we see someone's channel details

more at m.buddycloud.com/tmp/proofs

you

- **want to create products that users will fall in love with**
- **love reducing complexity**
- **love beautify artwork and design**
- **want to build the open future**
